

Please do not allow Indiana's "No-Phone List" (correct name escapes me) to be weakened. The difference it has made in the quality of our home life is like "night and day." I believe we are entitled to that kind of quality of life in our own homes.

We pay for having telephones in our homes. Why should we pay to be interrupted, annoyed, and inconvenienced by someone who will not take "No" for an answer. The calls border on harrassment.

It works! Please don't mess with it. Thank you.
